

Akash Pattil

QA Engineer | Functional | API | Database Testing | Agile Scrum | Automation Testing

QA Engineer with over **3.5 years** of hands-on experience in **manual testing** within the **Payment & Ecommerce** domains. My proficiency in **Functional, API (Postman), and Database(MySQL) testing**, along with a **strong foundation in selenium WebDriver, Java, TestNG, and BDD Cucumber**, enables me to contribute significantly to product quality. Served as **SPOC** for product demos on Tally Integration and B2B Spend Management. I facilitated integration testing, achieving a reduction in production issues and improving accuracy.
